# Inflammatory bowel disease (IBD)

A multidisciplinary  
approach

**HCAHealthcare UK**  
London Digestive Centre

Welbeck Street, Marylebone

## About us

London Digestive Centre provides treatments and diagnostics for patients experiencing all types of gastrointestinal (GI) diseases including colorectal cancers, inflammatory bowel disease (IBD) such as Crohn's disease, ulcerative colitis and irritable bowel syndrome (IBS).

Our world-renowned consultants and clinical experts adopt a multidisciplinary approach to patient care and combined with the latest imaging and diagnostic techniques, we can provide tailored treatment and management options, including surgery, for common and complex GI conditions.

Our specialist IBD multidisciplinary approach is a first in the private healthcare sector, encompassing all aspects of IBD care including: medical and surgical treatments, specialist nurses, nutritional support, stoma care and expert gastrointestinal radiology.

---

## Our services

Investigations can take place on the same day, in our specialised GI outpatient centre.

### Our service includes:

- Ultrasound, fibroscan and X-ray

  - Day care infusions unit
  - State-of-the-art theatres specialising in laparoscopic and robotic surgery (da Vinci Robot)
  - Dedicated GI ward with specialist GI nurses
  - Fully equipped Level 3 intensive care unit
  - Interventional radiology
  - Total parenteral nutrition service
- 

## Our consultants

Our multidisciplinary team (MDT) members hold senior positions in the national, European and global IBD societies\*, and are involved in developing UK and European treatment guidelines.

The team hold dedicated monthly meetings to discuss complex cases of Crohn's disease and ulcerative colitis and is comprised of IBD specialists including physicians, surgeons, radiologists and Clinical Nurse Specialists (CNSs), who review the cases and plan optimal patient care.

This multidisciplinary team also triage these referrals to appropriate specialist opinions.

\*British Society of Gastroenterology (BSG), Association of Coloproctology of GB and Ireland (ACGBI), European Crohn's and Colitis Organisation (ECCO), International Organisation for the study of IBD (IOIBD).
